ACCESSORIES

Allen Organ Company has more than 70 years experience with organists and church music. It's no surprise that they produce a range of accessories to assist church musicians and music ministries.

Allen's unique manufacturing capabilities, economy of scale and advanced technology provide incomparable value at surprisingly affordable prices.

Church Organists Primer

ALLEN Vista™

Add more than 200 extra sounds PLUS the ability to multi-track record.

This device provides another 94 organ stops plus more than 100 orchestral sounds such as pianos, strings, brass and percussion.

The latest version uses a touch screen to access the easy to use menus.

Recording and playback of music files including Standard Midi Files is also in Allen Vista. Data storage is on USB memory device.

EAC™ EXPANDED AUDIO CAPABILITIES BY ALLEN

Amplify other electronic instruments through your Allen organ audio system.

With this device you can amplify a CD player, electronic keyboard or other electronic device through your Allen organ's sophisticated audio system.

Allen MIDI Assistant™

Digital recording / playback with remote control.

This is a great tool for rehearsing and self evaluation. MIDI Assistant records every detail of your performance including stops changes and expression.

Files are recorded in a generic format and stored on a USB memory device. You can build up a library and make up your own playlists for any occasion.

A Church Organist's Primer DVD

For the pianist or keyboard player who wants to play the organ.

Allen Custom Audio

Consult your authorised representative for a tailored system.
